

## Evaluation Tools

After many weeks of hard work the TOI TOI TOI evaluation tools are programmed and pre-tested by the team of the Hungarian partner Széchenyi István University Győr.

The double-staged online tools use a survey for evaluating European partnerships in education projects on two different levels:

### a) Self-evaluation:

Each institution which wants to join European education projects can do a free self-evaluation for checking its own competences in impact oriented project work.

### b) Team-evaluation:

Future project coordinators can use this tool to obtain relevant information about possible project partners. Coordinators can invite other institutions via automatically generated e-mails to join the team-evaluation. So this second part which needs a short registration generates an overview on the whole consortium and can be used for strategic planning of project teams.

The evaluations are clustered into four main fields of competences which had been the main findings of analysing former Leonardo da Vinci project consortia: organisation, education and training, profession and European expertise.

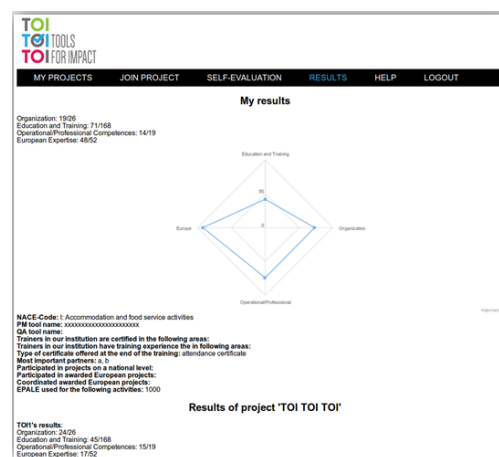

Fig. 1: Presentation of results on the evaluation tools

As shown in Figure 1 the results are presented in two different ways, graphically based by showing a spider diagram and text based by providing many useful information about the respective institutions.

## Pilot-Tests

After internally pre-testing the technical functionality the project team did intensive pilot-testing with institutions from whole Europe to ensure a maximum quality of the tools. If you want to conduct a pilot-test, please follow the following link and contact the project-coordinator Rainer Schabereiter.

## Final Conference

The final conference of TOI TOI TOI took place at Danube University Krems on the 7<sup>th</sup> of September 2016. About 50 participants from all over the world listened to the different lectures which presented all parts and aspects of the project TOI TOI TOI.

Fig. 2: Rainer Schabereiter talking at the final conference

The project team is very proud that so many relevant stakeholders joined the conference and at the end each participant got a printed version of the TOI TOI TOI Guidelines and a TOI TOI TOI bottle to be fit for starting in Erasmus+.

## TOI TOI TOI Guidelines

As mentioned before the TOI TOI TOI Guidelines (see Fig. 3) were presented at the final conference. This brochure of about 70 pages contents all relevant information on the project, gives useful advices of how to plan a project consortium and finally presents several successful EU-projects. It will be available in all partner languages plus in English and can be downloaded from the project website [www.toitoitoi.eu](http://www.toitoitoi.eu) for free.

## Closing

TOI TOI TOI will officially end on 30<sup>th</sup> of September 2016 but all members will further disseminate and maybe further develop the tools in other European projects.

The project coordinator wants to thank all team members for their professional work and their cordial friendship in the past two years.
