Short description of the NA

The National agency for European educational programs and mobility is a public institution established by Law and adopted by the Parliament of the Republic of Macedonia.

The aim of the National agency for European educational programs and mobility is to promote and implement the European educational programs into the Republic of Macedonia.

By implementing the programs, the National agency for European educational programs and mobility contributes to development of knowledge-based society, with sustainable economic development, more and better jobs and bigger social cohesion, at the same time providing environmental protection and especially exchange, collaboration and mobility into the areas of education and training.

Program beneficiaries are: learners, students, teachers, professors, educators and other personnel engaged in any stage of educational process, enterprises and other legal bodies including commercial entities, chambers of commerce and other associations of legal bodies in the field of industry, research centers and bodies, as well as citizen associations and foundations.

Main users of the programs represent:

- Comenius: primary and secondary schools
- Leonardo da Vinci: all institutions engaged in vocational education and training
- Erasmus: Universities
- Grundtvig: adult education institutions
- E-twinning: primary and secondary schools, kindergartens
- Study visits: decision-makers in educational institutions
- Youth in action: Non-governmental organizations, public bodies and non-formal groups of young people.

The implementation of the European Programs “Lifelong Learning” and “Youth in Action” in Macedonia got introduced for the first time, by the National Agency in the period of 2008-2013. It is in the beginning of 2014 when Erasmus+ become the new name of the Programme that undertook the activities of the previously mentioned programmes, as well unified the new EU Programmes for education, training and youth and sports.

2) Existing evaluation tools

This part of the pre-analysis report tries to detect existing evaluation tools in the field of project management which could be interesting for the development-phase of the Tol³ project.

Please search for existing evaluation tools or structures in your country which could be useful for our project.

Describe them as follows (use copy/paste):

The evaluation tools that are used by the National Agency in Macedonia correspond to the ones used by all National Agencies and the European Commission. They are available at:

3) Data privacy law on a national level

This part will be used for preparing the data privacy statement for the project. The TOI-TOI-TOI data privacy statement has to cover many different national laws under the “umbrella” of the European data privacy law. So please look for possible data privacy contracts and paragraphs, compare them with the EU-data privacy law and try to describe the things which have to be included in our project.

This link will help you in comparing national paragraphs with EU standards:

- *Differences to the EU data privacy law:*

In relation to the law for data protection in the EU there seems to be differences which relate to Article 31. This article applies to the issue of personal data transfer to other countries (Law for personal data protection in Republic of Macedonia).

Personal data protection In the context for internal telecommunication networks. (Law for personal data protection In the EU)

- *Paragraphs which have to be included in the TOI-TOI-TOI data privacy statement:*

TRANSFER OF PERSONAL DATA TO OTHER COUNTRIES

(Law for personal data protection in Republic of Macedonia)

Article 31

The personal data transfer to other countries may be carried out only if the other country provides adequate degree of personal data protection.

The Directorate shall evaluate the level of protection provided by the other country, on the basis of:

- the nature of the data;
- the purpose and duration of the proposed operation or processing operations;
- the country where the data shall be transferred;
- governing of the law and
- safety measures existing in the said country.

The provisions referred to in paragraphs 1 and 2 of this Article shall not be applied to the countries members of the European Union and the countries members of the European Economic Space.

If the European Commission shall determine that the third country does not provide proper level of protection regarding the transfer or category of personal data transfer, after receiving the notification in accordance with Article 27 of this Law, the Directorate shall issue a determination for prohibition of personal data transfer.

If the Directorate shall assess that the determined third country fails to provide proper level of protection regarding the personal data transfer, it shall immediately notify the European Commission and impose the controller to freeze the data transfer.

If the European Commission shall determine that the third country towards which the personal data transfer was aimed pursuant to paragraph 5 of this Article, provides proper level of protection, the Directorate shall notify the controller for recalling the freezing of the transfer, implemented pursuant to paragraph 5 of this Article.

If the European Commission shall determine that the third country towards which the personal data transfer was aimed, pursuant to paragraph 5 of this Article, fails to provide proper level of protection, the Directorate shall issue a determination for the controller to prohibit the data transfer towards that country.
